## Legenda

### LED

It marks the models with integrated LED included in the lamp, which is the result of Foscarini designing and engineering.

### ENEC

The label ENEC (Electrical Certification concerning European Standard) is a voluntary label granted by third organizations. It certifies that a product complies with the EN 60598 standards and has been designed and manufactured by companies with an approved UNI EN ISO 9001 quality control system.

Declares that the manufacturer produces light fittings which comply with the requirements of the EN 60598.

### Classe I

Class I° luminaire: it's necessary to connect the device to the yellow/green protective conductor (earthing).

### Classe II

Light fittings whose safety is guaranteed only by the double and/or reinforced insulation of all parts, with no earth.

### Class III

Appliance in which protection against electrical shock is guaranteed by the extremely low-voltage power supply and which does not produce higher voltages.

### IP Protection Degree

/P20: protected against the penetration of solid objects greater than 12 mm and non protected against liquids.  
IP44: protected against the penetration of solid objects greater than 1 mm and protected against splashing water.  
IP65: dust-tight and protected against water jets.

### Energy efficiency classes

The energy efficiency classes for light appliances set out by EU regulation no. 874/2012 are calculated on the basis of the Energy Efficiency Index (EEI) and range between A++ (maximum efficiency) and E (minimum efficiency).

### Dimmer

Please verify the compatibility of your bulb with the dimmer's wattage ranges, indicated on the dimmer itself, according to the kind of light source.

### Azienda certificata

UNI EN ISO 9001:2015  
UNI EN ISO 14001:2015

### CSQ - IQNET

The CSQ-IQNET label is valid all over the world. It certifies that Foscarini runs a quality management system which complies with the UNI EN ISO 9001:2008 standard, to guarantee a high quality level for what concerns project, development, production and distribution of its products.

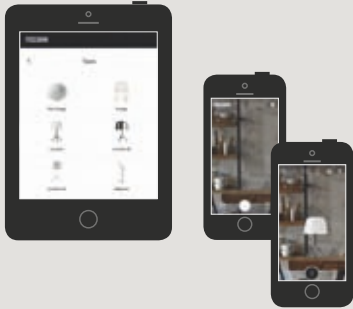

### CSQ ECO

*This label is valid all over the world.* It certifies that Foscarini runs an environmental management system which complies with the UNI EN ISO 14001:2004 standard in order to guarantee company's commitment to continual improvement of its environmental performances.

## Excerpt from sales conditions

1. Our prices are net ex works.
2. The prices include: carton packaging, transformers for low tensions. Prices do not include bulbs, if not differently stated.
3. The prices here contained refer to materials complying with the technical standards of the market this price list is meant for. Any request for material complying with other standards shall be quoted separately.
4. Goods are carefully inspected and accurately packed before shipment, Foscarini Spa therefore declines any liability for transport damages.
5. The goods are dispatched at the buyer's risk, even if sent free domicile.
6. Claims must be notified by registered mail addressed to our head offices within 3 days from receipt of the goods.
7. Any litigation falls within cognisance of Venice Italy Law-Court.
8. Dimensions and colours indicated have a tolerance due to the characteristic handwork of materials.
9. This price list can be subject to alteration without any notice.
10. Products images and configurations may vary from price book, catalogues and website from the actual merchandise, including but not limited to cords, cables, color, price, dimension, descriptions, details, dimmer.
11. Foscarini reserves the property of the goods until full payment of the same.
12. Prices are expressed in Euro vat excluded.
13. This price list replaces any previous one.

## iFoscarini app

iFoscarini an app designed for all design enthusiasts who wish to customise their surroundings with the unmistakable personality of Foscarini models.

With captivating and emotional graphics and extremely user-friendly it allows users to insert lamps in rooms and settings which are caught on camera each time or picked from an archive of pictures. Available on the Apple Store and Play Store the iFoscarini app is a very effective tool that is extremely simple to use.

## Social media

Foscarini is present on all the main social networks with systems and languages suited to each individual channel and type of user:

- Facebook to create and maintain public relations, communicate news and projects, share news, images and films;
- Instagram to view projects and stimulate users to create images with Foscarini models.
- Twitter publicise events, initiatives, news and links in brief, high impact messages;
- Pinterest to share images of Foscarini models and initiatives, subdividing them into theme boards;
- Linkedin to create and maintain relationships with sector operators and share professional contents

## myFoscarini

With the same spirit that provides new ideas in lighting design, Foscarini creates its own more efficient programs for customer and partner communication, for instance, myFoscarini, a proprietary platform, an absolutely innovative, highly flexible and transparent tool providing customers with complete information and full range of functions. With just a few clicks in my foscarini you can:

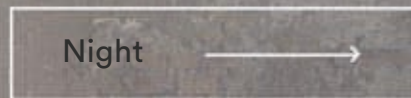

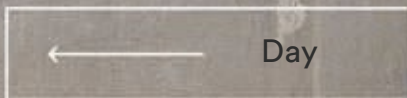

- check the availability of lamps and the shipping date
- Enter your orders, reserving lamps directly from Foscarini's central system

- track your order status
- consult sale conditions;
- download admin documents such as transport documents and invoices;
- prepare a quotation;
- download: images, logos, PDF and excel price lists assembly instructions, certifications and energy labels. And all this 7 days a week, 24 hours a day. If you haven't registered yet request your password from Foscarini Customer Care.

p. 185

- **On demand:**  
lead times to be checked with the sales department

The designers and the company chose to emphasize the material and the manual finishing of the lamp's external surface, leaving it rough and with no protective coating, in order to produce a chromatic alteration over time. On the other hand, it is possible to remove finger prints or dirt, cleaning only the external rough surface with water and a mild detergent with neutral-physiological pH factor.

## MyLight Collection

The **MyLight models** use the smart device Casambi to control light intensity from 100% to complete turning off.

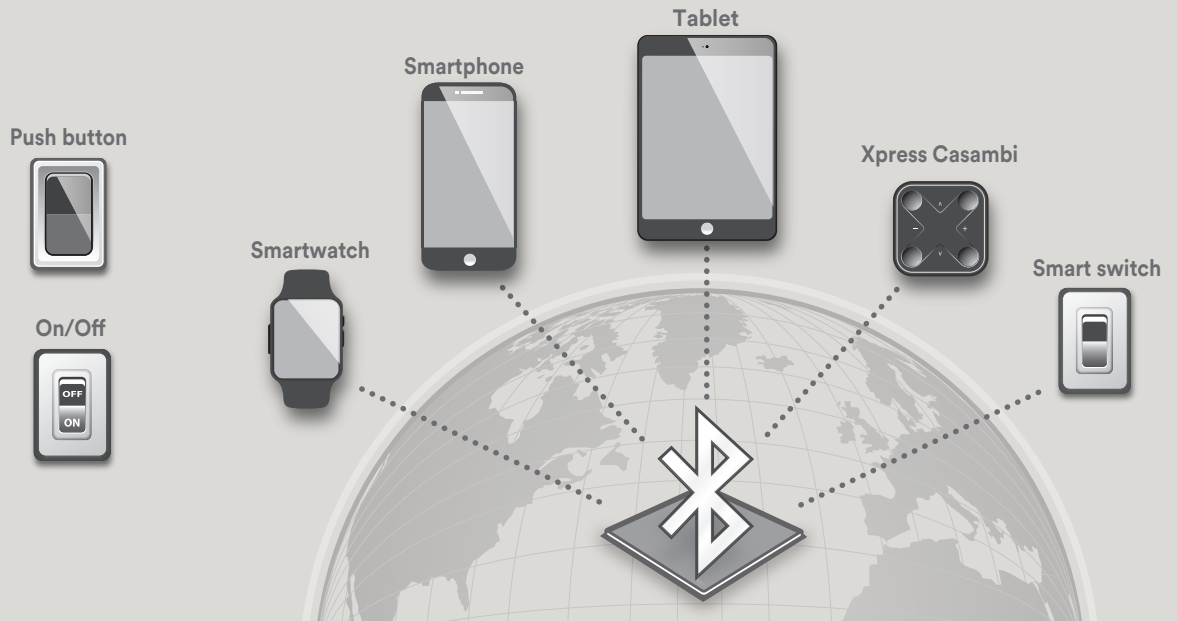

The system is easy and user-friendly. No new wiring, switch, device or Internet connection is needed. You only need to install the light source and match it through Bluetooth with your smart phone, tablet, or other control devices (see below). No further configurations by qualified staff are needed.

### Tunable White - Caboche

Besides light intensity control, with Caboche hanging light media, it's possible to control the LED light colour degree from 2500 K to 4500 K, from warm to natural or cold light through any intermediate level.

Controlled via Bluetooth - Casambi App [ iOS -  ]

## LED and dimming

### Spare parts for lights with LED included.

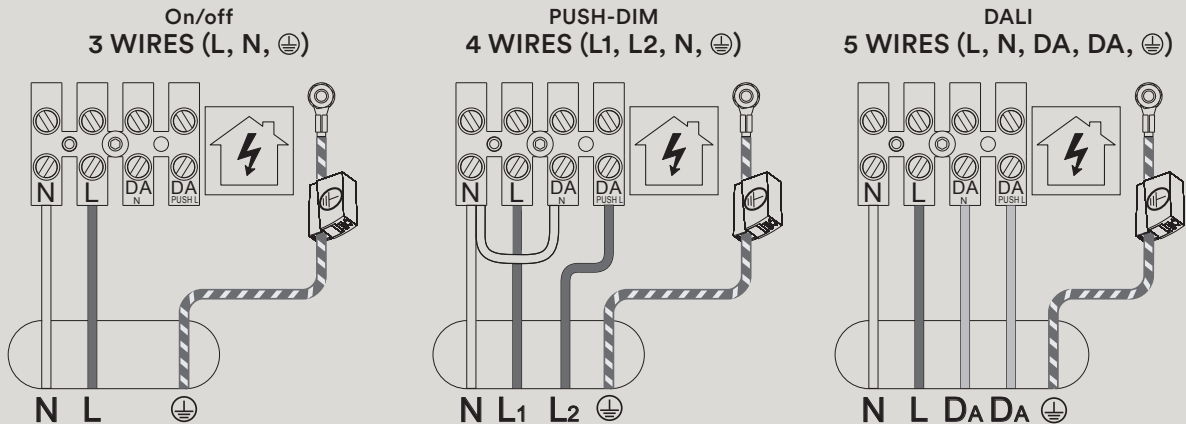

LED modules can be replaced by qualified staff on-the-spot and the spare part can be purchased to the company for the following lights:

Allegro, Aplomb Large, Bahia – Bahia Mini, Big Bang – Big Bang L – Big Bang XL, Caboche grande – Caboche media, Chouchin – Chouchin reverse, Gem, Gregg Media, Lake, Le Soleil, Plass, Rituals XL, Satellight, Tartan, Tress grande, Tuareg, Twiggy, Twice as Twiggy.

### Dimming

The following lights can be dimmed with On/Off – Push – DALI configurations:

Allegro, Aplomb Large, Bahia – Bahia Mini, Big Bang – Big Bang L – Big Bang XL, Buds LED included, Caboche grande – Caboche media, Chouchin – Chouchin reverse LED included, Dolmen, Gregg grande – Gregg media LED included, Innerlight, Jamaica, Le Soleil, Lumiere XXL/S LED included, Nuage, Plena, Rituals XL LED included, Spokes 1 – Spokes 2 – Spokes 2 large, Tartan LED included, Tress grande, Troag, Twice as Twiggy.

N = Neutro L = Linea DA = Dali PUSH = Dimmerabile Push

The following lights can be dimmed with TRIAC\* or AD IGBT technology:

Aplomb outdoor, Arumi, Caboche LED parete, Gregg Midi, Lumiere LED XXL - XXS parete, Satellight parete, Superficie.

The LED retrofit bulb included for the following lights is dimmable with TRIAC\* technology:

Buds – Chouchin – Gem – Gregg grande – Gregg media – Rituals XL – Satellight – Tartan.

\* the minimum power output (Watt) adjustable by the recessed light dimmer has to be lower than the light or the LED retrofit bulb power.

## Light Sources

**Halogen bulbs:** Starting from September 1st 2018, according to a European directive, some halogen light bulbs have been banned. This does not mean that they will no longer be sold, since they can be sold in stores until stocks run out. Directional halogen lamps (spotlights) and those with R7s - G9 and G4 lamp holders will continue to be available and sold.

If the use of a retrofit LED bulb in the lamp with lamp holder R7s is chosen, the supplied Pyrex protection glass must be removed.

**Lamps with dimmer:** Please verify the compatibility of your bulb with the dimmer's wattage ranges, indicated on the dimmer itself, according to the kind of light source.

**LED retrofit light bulbs:** Foscarini recommends the use of warm light bulbs for its whole collection. The light bulbs available on the market may feature technical specifications with various graphics and definitions, but a warm light tone is generally described as Warm White - 2700-3000K° and CRI > 80.

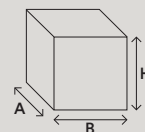

This table contains the necessary information to purchase the correct light source (models with integrated LED excluded).
